Who Should Attend
RNs, LPNs, NPs, CNMs, IBCLCs and other professionals providing care for women, infants and their families.

Program Overview
To address clinical and didactic issues related to providing evidence-based care to ensure the best possible outcomes for the childbearing family.

Objectives
• Discuss the impact of risk management on obstetrical care.
• Recognize the importance of a team approach when dealing with neonatal abstinence syndrome.
• Examine the effects of obesity during the childbearing period.
• Explore the role of the nurse when caring for a patient undergoing labor induction or augmentation.
• Describe appropriate nursing care for a woman experiencing postpartum hemorrhage.
• Identify three benefits of self care for health care professionals.

Credit
• 0.55 CEUs from Wake Forest School of Medicine
• 5.5 Contact Hours from Northwest AHEC

Nurses: This educational activity can be applied toward your continuing competence plan for maintaining your current licensure with the North Carolina Board of Nursing.
